

rwa2group21::Algorithm
::generate_goal

rwa2group21::Algorithm
::traceback_robot_movement

Simulator::setText

```
graph LR; A1[rwa2group21::Algorithm::generate_goal] --> S[Simulator::setText]; A2[rwa2group21::Algorithm::traceback_robot_movement] --> S;
```

The diagram illustrates two function calls originating from the `rwa2group21::Algorithm` class and pointing to the `Simulator::setText` function. The first call is from the `generate_goal` method, and the second is from the `traceback_robot_movement` method. Both calls are represented by blue arrows pointing to the `Simulator::setText` box, which is shaded gray.
